Atrixware **Axis** Learning Management System

Axis LMS is the LMS with Built-in E-Commerce

Introducing the E–Commerce App for Axis LMS – the built–in shopping cart enabling you to automate online course purchases and enrollments, as well as live classes and other offline products and services – available exclusively with the **Axis Learning Management System (LMS)**!

Automate Online Course Enrollments 24/7/365

★ Users that purchase online courses **get their sign-in information immediately** upon purchase!

★ Sell **Online Courses**, **Live Classroom Training** and Offline (or physical) products.

★ Set up **course durations** for purchases (limiting how long a user has access to a course).

★ Set up **coupon codes** for special promotions.

★ Setup **discounts** and then apply them to certain dates, or even user groups.

★ Use the included **online store**, or **integrate store and cart 'widgets' into your website** with the Site Designer App included with Axis LMS.

★ Complete **tracking** for everything purchased is available in a variety of **reports**.

★ Integrates with **authorize.net** and **PayPal**.

Enhance Your Training
