

Axis is the LMS with Built-in Design Tools

Create your **Learning Site** – both public facing and private (sign-in) sites with the **Portal Designer** – available exclusively with the **Axis Learning Management System**.

Creating your **Learning Sites**, adding pages and content, and even adding access logic has never been easier!

Design Your Learning Site - No Web Design Degree Required

- ★ Easily **add pages and content** using an **easy-to-use** browser-based interface.
- ★ Add and configure **dozens of 'widgets'** to your pages - from **images, text, course listings, navigation strips, shopping cart widgets**, and much more!
- ★ Position content (widgets) on your pages by simply **dragging-and-dropping into place**.
- ★ Add your own **JavaScript** and/or **CSS** if you want for additional granular visual control and logic.
- ★ Create **access/display rules for pages** by linking them to specific user groups which will have exclusive access.
- ★ Add your own **branding** including **banners, colors** and more .
